DON'T **Gamble** WITH YOUR **Feed Programs**

Use "Gold Standard" Feather Meal analysis in your formulation!

— Dr. Charles Sniffen, Fencrest, declares **Miner Institute's recent Feather Meal study is the gold standard for feed co-products:**

- Based on 200 + samples representing 85% of Feather Meal production
- Complete chemical + organic characterization with and without blood added
- Chemical analysis ready for input into CNCPS/CPM dairy/NRC 2001 and similar feed system models
- Formulate Feather Meal with confidence

Feather Meal • Poultry Meal • Poultry Fat • Poultry Blood Meal

Products are manufactured for the dairy, beef, pet food, swine, aquaculture and poultry markets. Read over 400 independent research reviews at www.poultryegg.org.

To learn more, call for a **FREE CD** : 770.493.9401 or contact a Poultry Protein & Fat Council member company directly. The complete Miner Institute Report is available at www.poultryegg.org/PPFC/docs/ProjectR54.pdf.

Uniting Science and NatureTM

For Animal Health and Performance

A lot of companies talk about providing affordable, effective natural solutions.

We deliver them.

A primary manufacturer of yeast and bacteria, Lallemand guarantees product quality:

*what's on the label
is what's inside the package.*
